ABOUT US

JAIL JAM, born in 2013, is a brand of those who love to live in the world, wherever it is, as long as it is in outdoor.

At our headquarters in Bologna, we develop products and accessories with a completely Italian, versatile and authentic design: colours and lines to complete a fashionable outfit, high-quality materials to discover nature, but above all, we create a free and open spirit that embraces everyone who wants to express themselves as they are, without labels.

A formula that works and which, fuelled by our passion, has allowed us to expand rapidly in Italy and in most countries of the world.

BRAND MANIFESTO

We don't like restrictions, constraints or life within four walls. The city is our playground, the outdoors - our natural habitat. Everything that really matters is out there. Because "outside" is where we meet, we get to know each other and, together, we free our passions. Outside is our lifestyle and our way of being. Outside is our freedom of expression and movement. But above all, outside is our home, infinite and without walls. The most welcoming place for those who, like us, look for space to let your dreams run wild.

VISION

We want to be a point of reference for those who enjoy outdoor life discovering their main passion. Whether it's a hike in the middle of nature or a city exploration, Jail Jam items are the perfect accessory to express your personality and feel comfortable anywhere, as long as it's "out there".

MISSION

Our mission is to create original and trendy products, that not only can combine aesthetic taste, but also meet the needs of someone who likes to live in outdoors. We promise to do our best to preserve and protect the world out there, trying to reduce more and more our impact on the planet.

JAILJAM

WE BELONG OUTSIDE

#EVERYBODYOUT

SUSTAINABILITY

In recent years, interest and awareness of environmental problems has increased.

We at Jail Jam have been firmly believing in the deepest connection between man and nature for almost a decade. The outdoors is a lifestyle, not just a business that needs to be followed in accordance with the current trend.

This great love for open spaces encourages us to improve, and today, compared to the past, we can certainly be delighted with the positive changes that we have implemented as a company and as people. In fact, this collection will feature a large number of products with recycled yarn, such as **R-PET** and **REPREVE**, which are obtained from plastic bottles during the recovery and recycling of conventional PET, which include sorting, washing, grinding and fusing of plastic materials.

Many products will have a STANDARD 100 by OEKO-TEX® certificate, which guarantees their compliance with legal requirements. It also certifies that the product marked with the STANDARD 100 is reliably certified for the presence of harmful substances.

The product changes with the packaging. Polybags will be made of 100% recycled material and will contain three items instead of the original single package, this will allow us to reduce plastic consumption by 66%. The hang tags and gift boxes are made of 100% recycled paper, which will save 65% of the energy needed to produce new paper and reduce water pollution by 35% and air pollution by 74%.

Together with Italian citizens and companies, we have joined forces to reach and exceed the European target of an 85% recycling rate for paper and cardboard packaging 15 years in advance. In fact, at the end of 2020, 87.3% of waste from the paper or publishing industries, offices, commercial and transport activities and household waste was recycle to give it a second life (2021 data from Unione Nazionale Imprese Raccolta, Recupero, Riciclo e Commercio dei Maceri e altri Materiali)

We, Mirage SRL, have been always sensitive to these topics, in fact, our office uses modern solar panels system that allow us both to fully cover our energy needs and to introduce clean energy into the public network and, therefore, to be a CO2 free company.

In the future, we plan to step up actions to protect the environment in order to be able to live again on a planet full of wonders and be able to leave a great legacy for future generations.

01

TRENDY AND FASHIONABLE.

From city to mountains, with Apple you give vitality and dynamism to any outfit.

The energy of design is voice of a modern vintage style with a boho chic touch, enriched by authenticity typical of jail jam. Braiding and 3d effect, photo sensitive and reflective yarn, colourful turmoil, and jazzy versions for the most imaginative.

Ladies, with glamour soul, can choose between different models enriched by metallic inserts, lurex and animalier jacquards. Boys, dynamic and casual, can dare with vintage patterns and shade on winter tones.

TRENDY AND FASHIONABLE.

From city to mountains, with Apple you give vitality and dynamism to any outfit.

The energy of design is voice of a modern vintage style with a boho chic touch, enriched by authenticity typical of jail jam. Braiding and 3d effect, photo sensitive and reflective yarn, colourful turmoil, and jazzy versions for the most imaginative.

Ladies, with glamour soul, can choose between different models enriched by metallic inserts, lurex and animalier jacquards. Boys, dynamic and casual, can dare with vintage patterns and shade on winter tones.

OUTDOOR.

Do you like outdoor life, are you an active person who loves make always new experiences?

Carambola proposes technical, functional and handy accessories. They protect you from cold, are reflective and equipped with windproof inserts.

The minimal design identifies carambola accessories making them ideal for sport clothing and perfect for any outdoor activity.

The fleece accessories of the Carambola line are made of **288F polyester**. The **288-thread** manufacturing and the presence of **lycra spandex** (5%) contribute to the **fabric's high quality**. The material is designed to offer excellent elasticity in all four directions, making it particularly suitable for those who value **practicality and comfort**. The softness and variety of colors further enrich all microfleece products.

DETAIL

MERINO WOOL

100% natural fiber, wool is renewable and biodegradable. Its production is sustainable, and after decommissioning it re-enters the natural cycle of decomposition.

MUSELING FREE

We are proud to use 100% mulesing-free merino wool. The wool is sheared without causing any physical stress or suffering to the animals.

THERMOREGULATING

Thanks to its insulating and temperature-regulating properties, wool keeps body heat, so it warms you at low temperatures outside and guarantees freshness in hot weather.

BREATHABLE

Merino wool fiber can absorb a large amount of water vapor, including body moisture, which is then released into the air. This function keeps the skin dry even during physical activity.

SOFT

Lint-free, it does not irritate and provides exceptional softness when in contact with the skin.

ODOR RESISTANCE

This natural quality of wool allows less washing and makes clothes especially suitable for sports and travel. It also guarantees a reduction in water and detergent waste.

DURABILITY OVER TIME

These items are made for the ages. We believe that the main way to contribute to environmental protection is to buy less and better.
