Manbi was born..quite literally in 1976. Maggie and Roger met on a mountain in Austria a few years before. They fell in love and hatched a plan to start making ski clothing...just as the first ski jacket was made, Fiona was born....and so began a family love affair for the mountains and for the gear we use when we are in those mountains. Nearly 50 years on, still based in Suffolk, Manby International Sportswear design and distribute a range of winter sports accessories.

AW24/25 sees the launch of our new Steiner Merino base layer – based on the same fit as the soft-tec active thermal the Merino Mix has all the hallmarks of what you have come to expect from the Steiner collection, comfort, warmth and reliable quality.

The Park Peak Piste collection from Manbi introduces new styles and colour ways in goggles, new helmets for your comfort and protection, socks that are tried and tested and essential accessories for the mountain and much more!

Like you, we are always grateful when customers choose to buy from and support British business. We continue to strive to make Manbi a Great British business!

MENS SOFT-TEC ACTIVE THERMAL SETS

RRP
£47.50

The Steiner Soft-Tec Active base layer is designed to keep you warm. Made from a combination of viscose rayon and spandex, the Soft-Tec active range is comfortable to wear owing to its soft jersey construction and integrated stretch system. The fabric feels soft to touch and is an ideal first layer to wear against the skin. The viscose rayon creates a proven thermal layer that is technically advanced and sustainable. Tried and tested this thermal layer will keep you warm on your outdoor adventures. Sold in Singles or Sets, boxed or bagged.

RADIATOR HEATED GLOVE + MITTEN

The Steiner Radiator range has been developed after years of research. The anatomical internal heating system uses a soft non-woven environmentally friendly fabric and covers the whole of the palm and fingers. Heat is transferred quickly over the whole hand for total warmth in cold conditions.

The patented heating system is flexible, anti-corrosive and has a high heat transmission ability. It is also washable and antistatic. The portable 2200mAh Lithium-ion batteries weigh 85g each. The twin adaptor charging unit enables the user to charge both batteries at the same time.

- Electronic battery powered heating system
- 3 level heating control with optimum duration for 8.5 hours, with easy reach on/off LED heating switch
- Soft-shell outer combined with leather palm
- 100g PrimaLoft™ insulation
- Gauntlet cuff with smart closure wrist-strap & touch screen compatibility
- 2 year warranty.

BANFF ADULT SNOW BOOT

Put a spring in your snow step with the Banff après boot. The Banff gives you the protection you need for the winter months. Lace closure at the front and a drawstring at the rear allow you to fasten the boot to just how you need it to keep the elements at bay. The inclusion of a Thinsulate thermal insulation layer will give you that boost of warmth whilst the water resistant membrane will help shield you when the weather gets tough. The Phylon and rubber rugged sole will give you added comfort and security on the slippery streets and snowy pavements.

- High ankle snow boot
- Water resistant treated Nylon upper
- Drawstring cuff fastening

SKI CARRIER

The Ski Carrier is designed to make life easier getting to and from the slopes. If you're trying to carry one or multiple pairs of skis the ski carrier will ease the burden. Simply open up the Velcro handle, release the webbing and reclose the handle. Slide the end of the skis through the bottom loop (without the red clip), adjusting as necessary. Then, undo the red clip and secure around the top of the binding, again adjusting as necessary.

Finally, carry the skis with ease!

- Hands-free carry system for skis
- Strong lightweight construction
- Folds easily into pocket for storage
- Fully adjustable shoulder strap
- Fits a wide range of skis

INSTRUCTIONS:

Step 1
Open the handle and release the webbing, close the handle.

Step 2
Slide the end of the skis through the bottom loop without the red clip adjusting if necessary.

Step 3
Undo the red clip and secure around the top of the binding, adjusting if necessary.

Step 4
Carry the skis with ease.
